

500W Inline Relay

Model No. LW821

Features

- RF Controllable 500W Inline Relay (latching)
- Can be controlled by LightwaveRF Controllers
- Smartphone control (requires lightwave link)
- Standard mains wiring
- Can fit standard 35mm single back box
- Switch up to 500W
- 3 position latch for open/close/stop functions
- Volts free or mains power
- Can drive electric curtains / door openers

Specification

RF frequency: 433.92 MHz

Input rating: 220-240V- 50Hz.

Output rating: 500W max

Type: Latching relay

Standby Energy Use: Less than 1W

Wiring: Requires mains power.

Operation: Performs volts free or mains switching.

Warranty: 2 year standard warranty

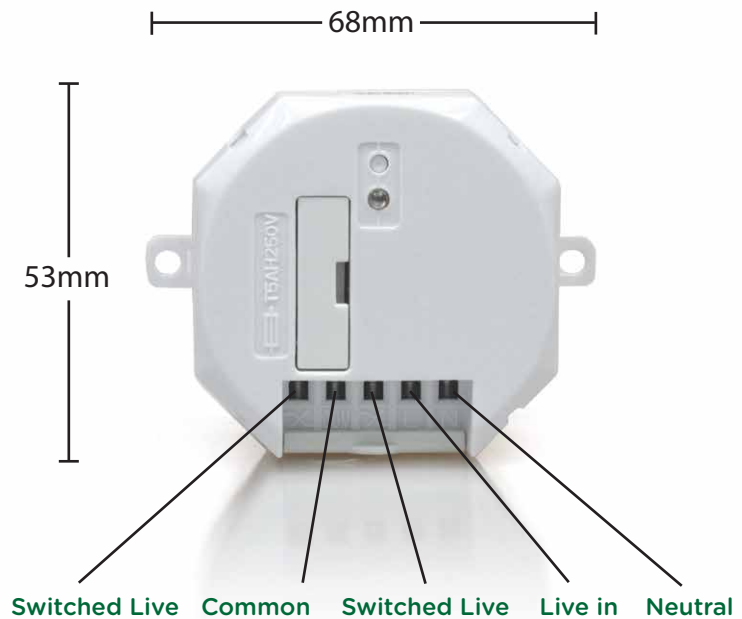

Mounting: Screw mounts attached

Environment: Indoor use except with JSJSLW824 Waterproof Enclosure.

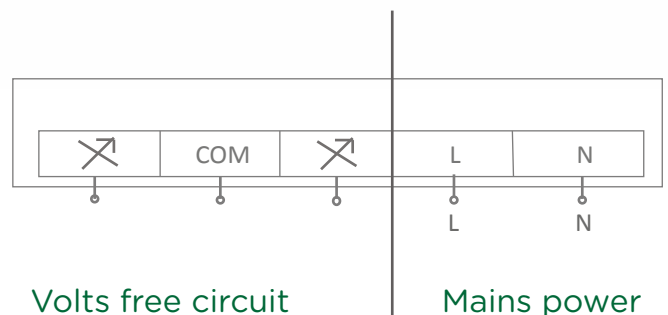

Housing: Relay should not be left exposed due to live mains input. It can be screw mounted in a standard 35mm back box or JSJSLW824 Water-proof Enclosure.

Regulatory Standards

CE Marked.

Wiring Terminals

Volts free circuit separate to mains unless jumped

Mains power input 230V
