868MHz

Power Supply
230V ~ 50Hz

Output rating:
13A

Smartphone compatibility
iOS & Android

The ultimate Outdoor Smart Socket.

- Robust weatherproof housing: crafted with top-grade materials and an IP66 rated weather-resistant casing, this smart socket withstands rain, snow, dust, and UV exposure, ensuring year-round durability and reliability.
- Smart home automation control for garden lighting, appliances and more from anywhere using your smartphone.
- Re-designed front socket case enables perfect mounting within the included weatherproof housing. Added structural ribs provide increased strength and durability where fixings hold the unit in position, all while maintaining the same exceptional connectivity, range and reliability that the Lightwave system offers.
- Magic Button: switch all sockets throughout your property from a Lightwave Smart Dimmer, no extra wiring required.
- Monitor energy consumption and create automations such as timers, scenes, triggers and more.
- Easy installation: effortlessly set up the smart socket within minutes. The intuitive installation process requires no specialised tools or additional wiring, making it accessible to everyone.
- Voice-control compatibility with Amazon Alexa, Google Assistant & Siri through the Apple HomeKit platform*

*Lightwave Link Plus and WiFi router with broadband internet connection required
